TO WHOMSOEVER IT MAY CONCERN

On behalf of the department of Neurology, Christian Medical College (CMC), Ludhiana which is the coordinating center for Indian Council of Medical Research (ICMR) funded Indian Stroke Clinical Trial Network (INSTRuCT), it gives me immense pleasure to provide a testimonial of the excellent work and support provided by Elbon Conferences and Events Pvt. Ltd. I organized the first Investigators meet of INSTRuCT and Task Force meeting of ICMR in Hyderabad (India) on 2nd and 3rd Aug, 2017 at Novotel Hyderabad Airport Hotel. The two day meeting brought Neurologists and their team from 27 different Indian Cities who are conducting clinical trials on STROKE funded by ICMR.

Elbon Conferences was a key driver for this Workshop from management and organizing point of view. They were involved right from initial stages for venue selection and negotiations, co-ordination with speaker for their itinerary, ticketing, accommodation management, local logistics, onsite registration, venue management, co-ordination with the venue, Audio Visual Management, Collateral designing etc. Everything ran very smoothly and all the delegates very happy with the two day workshop. The attentive attitude and detailing of team Elbon is something which is very well appreciated by all the participants.

It was therefore a pleasure working with team Elbon. My team at CMC Ludhiana is very satisfied with the services offered for the meeting and I am pleased to recommend its services to other associations and companies. Elbon Conferences and Events Pvt. Ltd. is very professional, transparent, dedicated in offering services of highest quality standard. We look forward to work with them again for our future projects.

Sincerely,
